Project Introduction

This project "Education portal APP" is for the students where they can easily access the notes related to any course or competitive examination. Other than this user can search for old or used books and can directly connect to the owner, through this application.

Project Objectives

- ▶ 1. To provide old books directly from one user to another user.
- ▶ 2. To provide appropriate notes of each subjects.
- ▶ 3. To provide previous years exam paper of competitive exam.
- ▶ 4. To provide a platform to user for asking about their queries and discussion platform about their problems.

5. To Save the environment by reducing

Disadvantages of existing system

- ▶ User has to visit stores manually to buy Old books.
- ▶ High cost of study material.
- ▶ Difficult for user to collect material from web.

Project methodology

Agile Methodology

It is a practice that promotes **continuous iteration** of development and testing throughout the software development lifecycle of the project.
